

Internal Realism

- How do we know there is a desk here?
 - We are all trapped in our subjective perceptions of the world around us, but out subjective perceptions oddly agree

Evidentialism

Definition 0.1

Evidentialism: all beliefs must be supported by evidence

- Some beliefs are basic and justified, such as things you learn through a reliable sense

Reliabilism

Definition 0.2

Reliabilism: a belief is reliable if it is the result of a reliable cognitive process.

- A *reliable* process is one that generally leads to the correct outcomes
